

## **Talking about Erasmus+ with our friends from primary school!**

*We were really pleased to host pupils from Primary School nr 85 today during our project meeting. We told them about Erasmus+ project "Treasure hunt – Poszukiwanie skarbu". We described countries which are involved in the project. We also presented them the main idea of the project which is WATER. Pupils were fascinated by the story of the Bad Witch of the North who stole and then crashed the precious stone – SAMPO. They were also excited hearing the way we fight for the pieces of Sampo. They were very eager to hear about meeting in Finland. Erasmus+ students served special Finnish sweets from Panda factory. The meeting was great and we hope to meet again next year!*
