

SUMMARY

The average of consumption:

1. **1st Measuring - common**
91 litres/person/day
2. **2nd Measuring - controlled**
76 litres/person/day
3. **Saved water**
15 litres/person/day

Ways of limiting water consumption:

- Put 2 bottles in the toilet tank
- Don't let the faucet run if it is not necessary (brushing teeth, rinsing dishes, cleaning vegetables, taking a shower...)
- Full loads for the dishwasher and the clothes washer
- Short shower instead of a bath
